Mr. Kenneth L. Alkema
Department of Environmental Quality
288 North 1460 West
Salt Lake City, UT 84114

Dear Mr. Alkema:

We appreciate your comments regarding the proposed Distribution Plan for water within the Utah Lake Drainage Basin. We realize the importance of maintaining the water quality in Utah Lake. Hopefully, when the studies currently underway by the Central Utah Water Conservancy District are completed, we will better be able to evaluate how the various projects being considered will effect the quality of water in Utah Lake, and what actions might be taken to mitigate these effects.

We appreciate your involvement in this important issue and will keep you apprised of any future developments.

Sincerely,

Robert L. Morgan, P.E.
State Engineer

RLM/wk
